Full Body Scan
(Multiple Regions)
\$500

2 Region Scan
(ex. Low Back and Leg)
\$399

1 Region Scan
(Women's Breast Health)
\$250

Citrus Thermography will be providing Breast Health Screenings and other detailed body scans using Medi-Therm: A Digital Infrared Thermal Imaging System that Identifies inflammation and early-stage diseases in the body.

This is the most sensitive, non-invasive, screening option to evaluate Breast Health. Medi-Therm is also a reliable diagnostic tool used in the early detection of inflammation and abnormal pathology elsewhere in the body.

All test scans are analyzed and interpreted by Board Certified MD Thermologists. Your results include a copy of your personalized report that describes your areas of concern.

Contact David Bibbey, L.Ac. to reserve your appointment time.
